Pi Approximation day

The process of calculating the value of pi was a never-ending and non-terminating value. It is an irrational number that is used in everyday calculations. The decimal form of the value pi is 3.14 approximately. And a day dedicated to this unique number is called Pi Approximation Day.

Every year, July 22 is observed as Pi Approximation Day, also called Casual Pi Day. It is even believed that the mirror image of 3.14 is a pie and the value of this number is infinite, which does not end.

National parents day

National Parents' Day honors all parents on the fourth Sunday in July. No matter where our parents may be, this day serves to celebrate their important role in our lives.

Where would we be without our parents, the people who loved us even before we were born? They do so much for us every day of our young lives and the love doesn't stop once we're adults. That's why it's good to honor them on their special day, National Parents' Day July 24.

International friendship day

Friendship Day (also known as International Friendship Day or Friend's Day) is a day in several countries for celebrating friendship. It was initially promoted by the greeting card industry; evidence from social networking sites shows a revival of interest in Friendship Day that may have grown with the spread of the internet, particularly in India, Bangladesh, and Malaysia.
