Community living camp 2016-18

In our fast-paced world of technology, camps expose young people to a different kind of environment - a community-based atmosphere in which campers learn about living, working, and playing together. In addition, campers typically learn a healthy respect for nature. The two-day community living camp organized during 10th April 2017 and 11th April 2017, as part of the B. Ed. curriculum 2016-18 was an experience in all sense, which was enough to fulfil the set aims of developing special skills in our future teachers to interact with different community and to spread awareness in the people. The notion of “working with community” way of socializing with an unknown community is essential for a good teacher for preparing him/her to work in any setting. This was taken care of while scheduling the programmes for the camp
