**Department of English**

## **A FLIP THROUGH FEBRUARY**

**If January is the month of changes,**

**February is the month of casting changes**

**If January is the month of planners**

**February is the month of doers**

### **Cancer day**

Like a wind that brings the odour of freshness, we welcomed the sibling month wholeheartedly. Though the classes were online it never shattered the moments we cherished. And yes the day arrived – February 04 world cancer day. Prior preparations of posters and drawings all collaged to a frame on this day. Like we mention heard melodies are sweet, it was sweeter with good efforts that cherished in the form of Dr. Dipu's message and lion's share of our savings that handed over satisfyingly, also the words of our sole pride dr. Bala ma'am and our narrator Arathi with her talks and quotes from innocents life story... but unheard melodies are sweeter , it proved apt by our Arathi with her hair donation on the same day. She proved action speaks louder than words and this reached a mile more to our destined success after the entry. The day went well. The speech went well, presentation went well, and so we did well...

## **Valentines day**

**Love matters... no matters whatever the result is!**

The long awaited day we got an offline chart that made our effort. Our teamwork to be presented and experience the feedback in hand.

**“I love thee with a love that shall not die, till the sun grows cold and the stars grow old”**

**- William Shakespeare**

We had an amazing day with the topping of valentine and the theme of ‘Love Matters’ regardless of boundaries. Began by Guruvandhanam and with the blessings, then the mode swifts to more interesting with our short film ‘love matters’. United we stood and divided we fall to success. But still monitoring the star Revathi. R with the creative head that finalized our dream. We made the day more unique. And the day not just ended with the presentation but also with a musical treat and final mashup the bonds us than we were.

And it ended with a new rise that rises new flames like the love which can be felt than viewing.

## INTERNATIONAL MOTHER TONGUE DAY

Yet another online day. But the shining never got faded. We had a day for celebrating our mother language.

The day began well with divine blessings and we had our morning session throughout in Malayalam which we enjoyed quite a lot. We had a speech on importance and relevance of mother tongue as our basic and primary language delivered by Anju Reji and also a pledge by Akshaya. And it ends well with the keynote addressing by our principal Dr. Balambika madam.

Though time and ages passes by there always outstands this lines that remains mother language sustainable one.

മറ്റുള്ള ഭാഷകളു് കേവലം ധാത്രിമാർ!

MOTHER  
LANGUAGE DAY**

21.02.2022

## **Science day**

If language is for communication, science stands for experimentation. Together stands the questioning and its finality to unrevealed questions. As all other days, today too went smoothly online but with a bundle of happiness by celebrating science day along with the physical science option. We began and the lead handed by our junior researchers and aspirants. The programme went smoothly with a wonderful recorded experiments on daily using items. It was such a visual infotainment. And to its peak we had Remya with a wonderful speech on Raman Effect. And that all made our day more effectual.

## **Conclusion**

With these colourful events, we had successfully completed the month of February an art that resembles our teamwork, happiness, passion, new talents and moreover our teacher's support and strength. And with all these happily handing our charge to next option to have and enjoy the more brightest phase of BSS, because the more, the merrier!

**Thank you!!**
