# **World Environment Day**

**05 JUNE, 2024  
9.30 AM @WISDOM HALL**

## *World Environment Day*

World Environment Day was celebrated on 5th June 2024 at Wisdom Hall by 9:30 AM. As usual, the day started with Guruvandhanam. Environment Day is celebrated annually on 5 June and encourages awareness and action for the protection of the environment. Soil is more than just the dirt under our feet. It is the planet's most biodiverse habitat for almost 60% of all species. And it is the direct and indirect basis for an estimated 95% of our food.

This is why droughts are so alarming. Throughout the world, people are feeling the impacts of the climate and environmental crises most strongly through water: the land is drying up, and fertile grounds are turning to dust.

World Environment Day 2024 was celebrated in a meaningful way by the Department of Social Science by adopting the theme land restoration, desertification, and drought resilience under the slogan "Our land. Our future. We are #GenerationRestoration."

Hence, to encourage awareness and action to protect our environment, an innovative concept was adopted by the department to bring awareness among all students from all streams by administering oaths in their respective classes.

"We, the staff and students of our college, pledge to practice everything in our power to protect, preserve, and enhance the beauty and glory of nature. We understand that we are responsible for sustaining the only livable planet 'Mother Earth' and saving it as a gift to future generations."

Also, as part of World Environment Day, the planting of saplings was carried out on the college premises.

The event began with a warm welcome speech by R. Sisira. Our Principal, Dr. K. S. Balambika ma'am, gave the inaugural address. Her words resonated with the audience, emphasizing the importance of the environment. Sir Mohan Krishnan's presence added prestige and significance to the occasion. He is the Deputy Forest Officer, Forest Vigilance, Nilambur Range. His keynote address was both inspiring and thought-provoking. His words resonated with both teachers and students, reminding all about the importance of Earth and the environment. After the keynote address, we moved on to a special program. We handed over the collected amount for the great project NirmalBhavan to Principal Ma'am in the presence of Mohan Krishnan sir. Then we planted the sapling of ayurvedic plants for the purpose of protecting our Earth. The program's highlight was the main speech delivered by S. Sruthy of Social Science Option.

The auditorium echoed with applause. Finally, the program ended with a vote of thanks delivered by R. Aiswarya at 11 AM. In conclusion, the Environment Day celebration at BSS Training College, Alathur, was a resounding success.

## *International Day Against Drug Abuse*

The International Day Against Drug Abuse and Illicit Trafficking, also known as World Drug Day, is a global event that takes place on June 26 every year. The event aims to raise awareness about the negative impact of illicit drugs on society and the health, safety, and well-being of individuals. The theme for 2024 is "The evidence is clear: invest in prevention," emphasizing the need for evidence-based drug policies that prioritize human rights, compassion, and a full understanding of drug use's social, economic, and health implications. The day is supported by individuals, communities, and organizations worldwide and often includes events and rallies to promote awareness and action against drug abuse and illicit trafficking. The United Nations Office on Drugs and Crime (UNODC) issues a World Drug Report every year, which provides key statistics and factual data on the global drug problem, as well as practical solutions to address it.

As part of the initiatory program, we, social science students were in different schools, organized a small session on International Day Against Drug Abuse in various schools. We conducted small activities in different locations to raise awareness about the dangers of drug abuse.

Erimayur School: Four of our members were present.

Karnakiyaman School, Palakkad: Another four members facilitated activities here.

Alathur Girls High School: Two of our members conducted sessions at this school.

Pazhayannur High School: One of our member conducted a small awareness class at this school.

Additionally, each of us delivered a brief awareness talk to the children in our respective classes. We also encouraged the children to create small posters on the topic of international drug awareness.
